LABOR CATEGORY DESCRIPTIONS

Labor Category	Minimum Education	Minimum Experience	Description of Duties
Business Manager	Bachelors	9	Manages, reviews and analyzes business management systems and user needs. Formulates systems to parallel overall business strategies. Prepares detailed description of user needs, program functions, and steps required to develop or modify computer programs. Provides consultation on complex projects and is considered to be the top level contributor/specialist.
Contract Manager	Bachelors	15	Manages a single task or contract project; reports and coordinates activities with the Program Manager. Ensures timely and high quality services are provided to the customer while compliant with all contract terms and conditions. Responsible for organizing and managing task workloads and meet cost, schedule, quality and performance requirements.
Program Manager	Masters	10	Responsible for leading multiple projects under multiple task orders or contracts. Ensures timely and high quality services are provided to the customer while compliant with all contract terms and conditions. Responsible for organizing and managing task workloads within established budget and schedule guidelines. Manage the overall activities and staff for the program schedule, quality control and contract delivery requirements list (CDRLs).

Program Control Analyst	Bachelors	3	Includes all labor efforts identified as business and finance in nature, including project control, finance and accounting, project planning and scheduling, and cost-estimating. Additional duties: - Performs complex evaluations of existing procedures, processes, techniques, models, and/or systems related to management problems or contractual issues that would require a report and recommend solutions. Principal duties may include work breakdown structures, prepare charts, tables, graphs, and diagrams to assist in analyzing problems. Provides daily supervision and direction to administrative staff.
Deployment Support Manager	Bachelors	15	Provide expert support, analysis and research into exceptionally complex problems, and processes relating to the subject matter. Serve as technical expert on executive-level project teams providing technical direction, interpretation and alternatives. Works independently with minimum guidance and demonstrates exceptional written and oral communications skills.
Logistics Analyst	Bachelors	5	With minimal direction, performs logistic support functions per requirements of the contract or task order. Individual must be familiar and understand the principles of acquisition management work under limited supervision. Develop upgrades and improves systems for tracking and reporting material, material handling procedures and scheduling and may be required to supervise other Logistics Analysts or Logisticians.
Field Service Specialist	Bachelors	6	Under occasional supervision, work from schematics, diagrams, written and verbal descriptions or defined plans to perform testing and troubleshooting functions on electronic or mechanical components, equipment or systems. Typically, works remote; conducts engineering tests and detailed experimental testing to collect data or assist in research work.
Senior Operator	High School	10	Under occasional supervision, monitors and supports computer processing in support of a task or contract. Coordinates input, output and file media. Runs the day-to-day operation of a server and is available when the system is.

Operator	High School	5	Under direct supervision, monitors and supports computer processing in support of a task or contract. Coordinates input, output and file media. Runs the day-to-day operation of a server and is available when the system is.
Business Analyst Senior	Bachelors	9	Monitors and tracks program expenditures versus funding and budget allocated on contract. Participates in program reviews with the customer and responsible for the financial status of the program. Prepares monthly cost reports to be submitted as deliverables on the contract.
Consultant	Bachelors	9	A highly skilled, experienced and extremely knowledgeable individual (utilized for short-term efforts and/or on an intermittent, part-time basis) who has meticulous, comprehensive knowledge of a specific air, space, missile, or defense technology, technical, or operational area which include, but are not limited to, propulsion, optics, radar, directed energy, or communications. Not an officer or employee of a contractor/subcontractor. Obtain information, advice, opinions, alternatives, conclusions, recommendations, training, or direct assistance, such as studies, analyses, or evaluations.
Subject Matter Expert	Bachelors	9	Expert in single or multiple technical disciplines providing expert knowledge and insight into specific areas of science and technology. Guides the development and application of this knowledge to the project. Independently performs a variety of system design and integration tasks where subject matter expertise is required.
Engineer (Intermediate)	Bachelors	5	Under supervision, provides engineering and/or scientific solutions for highly complex technical/scientific matters to include providing technical support to field engineers, technicians, technical support representatives and customers who are diagnosing, troubleshooting, repairing and debugging complex problems. Perform duties and responsibilities focused on increasing the quality and reliability of processes, products, or services provided by the supported

			customer. May design and conduct tests and analyze results of tests or outputs intended for Customer.
Engineer (Analyst Advanced)	Bachelors	7	Under occasional supervision, provides engineering and/or scientific solutions for highly complex technical/scientific matters. Perform duties and responsibilities focused on increasing the quality and reliability of processes, products, or services provided by the supported customer. May design and conduct tests and analyze results of tests or outputs intended for Customer.

DEGREE	EQUIVALENCY
G.E.D. or vocational degree	High School Diploma
AS/AA degree	2 years of general experience
BS/BA degree	6 years of general experience
MS/MA	4 years of general experience
Ph.D.	3 years of general experience
For Example – MS/MA degree=BS/BA + 4 years experience
